

St. Louis Section News

"The home of the American Society of Mechanical Engineers, St. Louis Section"

www.asmestlouis.org

November 2018

ASME helps the global engineering community develop solutions to real world challenges. Founded in 1880 as the American Society of Mechanical Engineers, ASME is a not-for-profit professional organization that enables collaboration, knowledge sharing and skill development across all engineering disciplines, while promoting the vital role of the engineer in society. ASME codes and standards, publications, conferences, continuing education and professional development programs provide a foundation for advancing technical knowledge and a safer world.

November Meeting - Arch Museum and Tour

CityArchRiver shared their plans for the Gateway Arch renovations a few years ago. Now that everything has come to fruition, come join us on a tour of the brand new Arch grounds and museum. CityArchRiver has now transitioned into a long-term organization as the Gateway Arch Park Foundation, but the same great folks there will provide both the regular museum tour as well as some additional information focusing on the mechanical challenges in the renovations such as the HVAC and tram restoration.

WHERE:

Gateway Arch Museum
11 N 4th St, St. Louis, MO 63102
St. Louis, MO 63102
www.gatewayarch.com

WHEN:

Saturday, November 20th, 2018
9:30am - 12:00pm

TOUR:

Tour begins at 10:00am

ON THE MENU:

The tour will include a voucher for a meal with a drink for after the tour.

COST:

Members: \$10, Students: FREE

Please RSVP by 11/7/18 by visiting <http://asmestlouis.org> or send it to Brad Tissi at btissi@gmail.com

Engineer's Week Schedule

THE
**ENGINEERING
CENTER**

Celebrate Engineers Week

February 16-25, 2018

Schedule of Events

Friday, February 16, 4:00 to 7:00 pm

@ The Engineering Center

Career Fair Happy Hour - All college students and graduates won't want to miss the opportunity to meet with top St. Louis engineering firms and local engineers for networking, interviews, and cocktails. Online registration at engineeringcenter.org.

Monday, February 19, 10:00 am to 12:00 pm

@ The Little Bit Foundation

Engineers Give Back to STL - In a day of community service, join us as we assist the Warehouse Team assemble student orders.

Tuesday, February 20, 11:30 am to 2:00 pm

@ The Clayton Plaza Hotel

Annual Engineers Week Luncheon - Join this industry celebration of yearly accomplishments, featuring a special guest speaker (TBA). Tickets available for purchase at engineeringcenter.org.

Wednesday, February 21, 11:00 am to 1:00 pm

@ The Engineering Center

Show Me Engineering Conference - High school counselors around the region come together to learn about engineering opportunities for their students. To register, engineeringcenter.org.

Friday, February 23, 3:00 to 6:00 pm

@ The Engineering Center

Student Discovery & College Fair - High school students explore engineering with activities and demonstrations by leading STEM companies and speak to college recruiters.

Saturday, February 24, 9:30 am to 4:30 pm

Sunday, February 25, 11:00 am to 4:30 pm

@ The Saint Louis Science Center

Engineering Exposition - Learn about engineering at booths and exhibits throughout the Science Center, hosted by Missouri Society of Professional Engineers.

- 2018 Sponsors -

The Engineering Center • 4359 Lindell Blvd., St. Louis, MO 63108 • engineeringcenter.org • 314.533.9336

Tom Bever Memorial Undergraduate Scholarship

The St. Louis section will be accepting nominations for a \$500 undergraduate scholarship for the fall semester. In order to be considered, the student must submit the following by August 1st:

- Unofficial transcripts showing the student is an undergraduate pursuing a Bachelor's degree in Mechanical Engineering
- ASME student membership – include ASME membership number in submittal
- Submit a short essay describing outstanding accomplishments including volunteer roles in ASME (member of design team, officer positions held, etc.)

All materials should be entered on the www.asmestlouis.org website via the "Scholarship Application" link found on the main page. Selection will be based primarily on ASME volunteerism. Open to students attending a college in the St. Louis Section including: St. Louis University, Southern Illinois University Edwardsville, Missouri University of Science & Technology, Washington University, and University of Missouri in St. Louis.

ASME Group Leadership Development Conference in Orlando, FL 2018

At the GLD Conference in Orlando, FL, the ASME St Louis section was represented by Ryan Neil, Louie Woodhams and Igor Povarich.

Our presence at the conference allowed us a face to face contact with the Leadership from ASME National. One of the most important topics discussed at the conference were on Section Operations, Planning and Budgeting.

If you have any questions regarding this conference, please feel free to email the board members or join us at the next board meeting.

Engineering Center STEM Outreach Opportunity

Dear Members,

The Engineering Center of St. Louis respectfully requests your support and participation in creating outreach into regional schools encouraging local students to pursue an education in high-demand STEM fields. The STEM Alliance has launched the STEM Alliance Speakers' & Mentors' Bureau with the mission to connect professionals into classrooms to inspire and encourage the next generation to continue taking steps along STEM pathways. It will provide valuable links to mentoring, scholarship opportunities, university connections, and eventually careers. Encouraging local students to follow STEM pathways in education will help to fill the STEM talent pipeline that is critically needed for the region to continue to grow and create prosperity for St. Louis. This is a call for volunteers to participate in the bureau. Please consider completing the attached application and forwarding it to joy.david@engineeringcenter.org. Thank you for your consideration and support to this much-needed community outreach program. Please feel free to forward the application to members, colleagues, and other STEM professionals you feel would be a valuable asset to this program.

Sincerely,
W. Dave Yates,
PE President

ASME Auxiliary Scholarship Program

From Arnie Feldman, Chair EED to all EED Members:

You are likely familiar with the scholarship programs that in the past were sponsored and administered by ASME. The ASME Auxiliary currently sponsors a Student Loan Program (SLP). The terms and conditions for the SLP have recently been revised to make these loans more widely available to students in need of financial assistance to complete their degree requirements. Loan repayment terms have been revised to make it easier for students to find employment and to establish their careers or to complete graduate studies before beginning to repay their loans. The guidelines and loan application are attached to this email and also available at go.asme.org/loans.

The major points of this loan program are:

1. Maximum of loan amount of \$5,000 per student
2. Available to ASME Members or Student Members who are US citizens or permanent residents majoring in Mechanical Engineering or a closely related program
3. Loan interest at 4% on the outstanding loan principal
4. Loan interest does not begin accumulating until the first of the month immediately following graduation, change or termination of student status
5. Loan plus accrued interest is to be paid in thirty-six (36) equal consecutive monthly payments commencing within six (6) months after graduation. There is no penalty for early repayment.
6. Students must be an ASME Member or Student Member in good standing for at least one year and until the loan is paid in full.
7. Student must be enrolled in full-time academic studies in the U.S and making satisfactory progress in his or her degree program
8. Have a minimum GPA of:
 - 2.20 on a 0 to 4.00 scale - (Undergraduate Students)
 - 3.20 on a 0 to 4.00 scale - (Graduate Students)
9. Student must have a demonstrated financial need and have a written letter of recommendation from the Chair of the Department, the Dean of Engineering, or Faculty Advisor of ASME Student Section.
10. A one time graduate education extension may be awarded to qualified students.

Please inform all students in your programs who you feel qualify for these loans to submit an application, or to request additional information.

Ed Seiders
ASME Auxiliary Student Loan Treasurer
email: seiderse@asme.org

Young Engineer and Student Section Website Offer

The St. Louis Section is offering any regional student section and young engineers monthly feature on our website. Your page will be complete with Google Calendar, Blogger and interests information in an effort to help the student sections and professionals entering the workforce, to keep organized even when they may lack the resources. If you know of a student member that would be interested, please have them contact us at asmestlouis@gmail.com.

Young Professionals in St. Louis

In this new section, we would like to present young professionals who are looking for opportunities to establish themselves on the career path of Mechanical Engineering.

Our first profile is Kevin Belgeri, who is an active ASME member and many of you have met at our events.

Kevin is a graduate of UMSL with BS in Mechanical Engineering with a GPA of 3.63.

He is a Certified Engineering Intern and his interests are in Mechanical Design, 3D modeling, Fabrication and Engineering Support.

Most notable projects he has worked on are the design and construction of a vehicle capable of autonomously following a 3D path and the assembly of a plasma speaker at St Charles College Engineering Club.

Feel free to reach out to Kevin at kjbelgeri@gmail.com with any advice and project ideas.

ASME Section Contributions

In past years, the St. Louis Section has covered section activities by receiving an allocation of funds from ASME National. This allocation was based on how active the section was and what types of events were hosted by the section (i.e. offering professional development and holding joint meetings with other engineering groups). Since 2014 year, ASME National has stopped contributing to the local sections and instituted regulations on how sections can spend their money. The section is now using money that was saved from past conferences held in St. Louis and contributions from members.

When completing your ASME renewal, please consider contributing to the St. Louis Section. This will help to sustain the group that has survived since 1909 and is run entirely by volunteers in the St. Louis area. You can contribute by completing the voluntary contribution for sections on the ASME renewal form.

We are also looking into the potential to utilize relevant sponsorships to help alleviate the continuing costs as well.

St. Louis Section Events and Links

The St. Louis Section is continuously looking for new events and activities to offer members. This includes tours and presentations.

If you have ideas or would be interested in being an event captain please contact any of the officers on the next page.

ASME Referral Drive & ASME Special Offer

From ASME:

“

As a valued ASME Section Member, we are requesting your assistance to help us spread the word to non-members about two exceptional opportunities we have for them to join ASME:

1. The ASME Referral Drive: Current members can simply provide us with the names and email addresses of their non-member peers and colleagues and we do the rest! The prospective member will receive a special discount offer to join ASME including a free gift, and the referring member may also be eligible to earn great prizes when they do. Please encourage your section members to make their referrals today at: <http://go.asme.org/ReferralDrive>

- and -

2. The ASME Join Today Special Offer: Members can also share the ASME Join Today Special Offer URL directly with friends and co-workers by: email; placing it on their university or company intranet; posting it to their favorite social networks such as Facebook, Twitter, Google+ and LinkedIn, or however they wish! Joiners will enjoy a special dues discount plus a free gift. Please urge your section members to post this special offer URL in as many appropriate venues as they can: <http://go.asme.org/JoinToday>

We rely heavily on your ongoing support to introduce ASME Membership to as many prospective members as possible, and we thank you in advance for your help in spreading the word about these very special membership opportunities - each of which include a generous **25% dues discount** plus a **free ASME bag** for new members!

”

Two Great Ways
to Help ASME
Grow Membership!

Next Board Meeting

Please join us at the next Board Meeting on **November 29th, 2018 @ 5:45pm**

Location: C.J. Muggs
101 W Lockwood Ave, Webster Groves, MO 63119
